Subject: RE: CERCLA 108

Patrick,

Thank you for the clarification. I will send you a calendar invite for the call next Tuesday.

Regards,
Andy

Hi Andy,

One in the same. I recently transferred from OLEM to Region 8. There is not another political in OLEM at this point. I can help you.

Thanks,

Patrick Davis

Subject: RE: CERCLA 108

Patrick,

That works for me. I will plan to call you at your office: (303 312-6855, unless there is a better phone number.

Question: Could there be two Patrick Davis's at EPA? I intended to reach out to the Patrick Davis at EPA headquarters working in the Office of Land and Emergency Management.....

Regards,
Andy O'Hare

Subject: CERCLA 108

Mr. Davis,

Good morning. I am writing in regards to the CERCLA 108 final agency action anticipated for December of this year and wondered if we could have a brief conversation regarding same. My members and myself were in recently to meet with Barnes Johnson and his colleagues as well as with Bryon Brown.

Please let me know when would be a convenient time for you for a brief conversation.

Regards,
Andy O'Hare

Your message couldn't be delivered to multiple recipients.

The recipients weren't found at heitekamp.senate.gov.

davis.patrick
Action Required

Office 365

Recipients
Recipients

Unknown To address

Couldn't deliver to the following recipients:

michaela.brost@heitekamp.senate.gov, norman.mccloud@heitekamp.senate.gov

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.1 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

Was this helpful? [Send feedback to Microsoft](#).

More Info for Email Admins

Status code: 550 5.1.1

This error occurs because the sender sent a message to an email address outside of Office 365, but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Mail flow settings and MX records are not correct - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see [Fix email delivery issues for error code 550 5.1.1 in Office 365](#).

Subject: Reports from the June 25 EPA Ag Smart Sectors Roundtable

Good Morning,

Thank you for participating in the June 25th EPA Ag Smart Sectors Roundtable in Minot. Please find a couple reports reflecting our discussion. A big thanks to Rebecca Perrin for the help in coordinating this event and report. Please don't hesitate to contact me with questions. Those who were invited but not able to attend are copied on this email.

Sincerely,

Patrick Davis

ND Corn Growers Association
Smart Sector Subjects
June 25, 2018

Ethanol Priority Issues

- **RVP parity for ethanol blends greater than 10 percent, such as E15**
Corn growers have asked EPA to use the agency's authority to extend the 1.0 pound per square inch (psi) Reid Vapor Pressure (RVP) allowance that currently applies for 10 percent ethanol blends to E15, enabling E15 to be sold year-round and enter the market on the same terms as E10. We believe EPA has several justifiable options to update the agency's RVP regulations and encourage EPA to move forward. Because E15 has lower evaporative emissions than E10, as well as produces fewer tailpipe emissions, extending the same RVP allowance to E15 as applies to E10 furthers EPA policy goals.
- **Broad grant of RFS exemptions for small refineries without reallocating exempted obligations to other parties**
Corn growers are extremely concerned with EPA's recent use of the small refinery exemption authority to grant RFS exemptions to small refineries. If the exempted obligations are not reallocated to other obligated parties, the Agency's actions have the effect of reducing the RFS volume requirements. Most recently in the 2019 RVO proposed rule, EPA stated exemptions granted for 2016 and 2017 RFS obligations amounted to 2.25 billion ethanol-equivalent gallons. For farmers, every billion gallons of ethanol production ties back to 2.1 million acres of corn; these exemptions impact corn demand.

Clean Water Act Issues

- **We look forward to a new WOTUS rule that provides clear jurisdictional boundaries to farmers and protects our nation's water.**
Under the unlawful 2015 Rule farmers would have had to obtain permits for discharges into mostly-dry land features that are not actually "waters of the United States" (at a costs of tens or hundreds of thousands of dollars per permit), or assume the risk of fines and criminal penalties.
- **NCGA and ND Corn supports the repeal of the National Pollutant Discharge Elimination (NPDES) permits for pesticide applications as mandated by the U.S. Sixth Circuit Court of Appeals.**
Requiring Clean Water Act NPDES water permits for pesticide applications is redundant, costly, and provides no additional environmental benefit.

Crop Protection Issues

- **ND Corn growers urge the EPA to objectively evaluate the risks and benefits of crop protection products using the best available science.**

NCGA and ND Corn supports a requirement for a scientific-based review and cost risk/benefit analysis for the registration and re-registration of crop protection products including triazines.

- **The interagency consultation process for pesticide registrations under Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Endangered Species Act (ESA) must be streamlined.**

The continued confusion around this process and a path forward has been an issue for decades and has not provided additional protection for wildlife. The process has created confusion on the farm, in the marketplace, and wasted time and resources.

US EPA and North Dakota Departments of Agriculture and Health

Agriculture Smart Sectors Meeting

Minot, ND

Monday, June 25 – 3:00 pm – 4:30 pm

Meeting Summary

Welcome and Introductions

Environmental Protection Agency (EPA) Senior Advisor to the Regional Administrator Patrick Davis welcomed attendees and invited the attendees to introduce themselves and offer their ideas for EPA reforms.

Stakeholder Input

Participants introduced themselves and provided the following comments organized by environmental statute:

Clean Water Act:

- Water issues such as salinity, drainage-tiling, wetlands, and 'tea cups' were discussed. It is hoped that these issues will be addressed in a WOTUS rewrite.
 - o Salinity – Farmers need less regulation in dealing with salinity.
 - o EPA needs to support farmers doing soil health activities.
 - o EPA and US Army Corps of Engineers need to cooperate in streamlining soil health activities.
 - o Ag is responsible for water on their land so they need to be able to talk freely with the EPA about solutions without fear of enforcement.
- No till challenge:
 - o Soil test show phosphorus (P) in the soil but plants grown in the soil are P deficient. This is due to the stratification of P in the top three inches of the soil and not being available to plant in the deeper root zone. This causes over application of P.
- Nutrients – We don't need more regulations, we need better farmer education. (ie: manure application is good for soil and water but farmers need to be educated about how to apply).
 - o North Dakota's nutrient strategy is to help farmers learn how to reduce nutrient loss in water without hurting crop profitability (NDDH)

- Some producers need nutrient management education while others are great stewards. We should celebrate the “good” producers are doing and make them examples for the rest of the industry.
- ND has water bodies of concern but they are not being cleaned. They contain sedimentation from nutrients deposited in the 1950’s and new water stirs up sediment. These water bodies need to be dredged. Challenge: Corps won’t let farmers deal with the issue without a 404 permit.

Clean Air Act:

- The Renewable Fuel Standard and its importance to the corn and ethanol industries in North Dakota was explained.
 - EPA is undermining RFS granting waivers to oil refineries.
 - The ethanol industry wants to sell E15 year-round.
 - Corn is good for rotation with wheat and soybeans to deal with weeds and corn needs the ethanol market.
 - “We need an explanation from EPA as to what constitutes a ‘hardship waiver’ for oil refineries.”
 - Separate RIN’s from the marketplace. EPA should set the price of RIN’s and RFS violation fines should be paid to the EPA. This would provide stability and predictability for the RIN market.
- Carbon dioxide should be reclassified as NOT a pollutant because it is a basic building block for human existence.

FIFRA:

- EPA needs to streamline the pesticide approval process to resurrect old” chemistries’. Label pesticide for when you anticipate losses Don’t wait for an agricultural loss to process FIFRA section 18.
- EPA needs to be proactive in allowing farmers the use of other chemicals if they are effective for the targeted weed or pest. Deal with weed resistance issues before they become an emergency – EPA needs better guidance.
- Simplify the chemical repackaging tracking process. EPA chemical repackaging guidance is hard to understand especially for small cooperatives. EPA’s FIFRA risk assessment information is outdated and not easily accessible to the public.
- Harmonize labels with Canada. Improve coordination between EPA and Canada when it comes to chemical approval. (ie: paraquat is the preferred dry down for canola production and however other countries do not allow a tolerance for this chemical. US and Canada seem stubborn about accepting each other’s label language.)
- Pollinators (bees and butterflies) were discussed. Agriculture is NOT 100% to blame for the loss of pollinators. Education v. regulation is necessary for agriculture and the environmental community to learn from each other. Minnesota and California take an aggressive stance on certain agriculture products making it difficult for the entire

industry to use those products. The Dakota skipper butterfly was identified as a concern in North Dakota

(<https://www.fws.gov/midwest/endangered/insects/dask/daskFactSheet.html>)

- Use social media to distribute educational information about the relationship between pollinators and agriculture.

Community Right to Know and RMP:

- o EPA needs to simplify RMP guidance, break out materials by industry regulated under RMP. (ie: Rules applicable to chemical manufacturing are not relevant to a farmer and the guidance document is long and complicated.)
- EPA should develop short outreach education materials or videos to explain RMP compliance.
- Question – Is the SPCC rule for farms final?

Miscellaneous/another Federal agency:

- EPA should adopt the “Keep it Simple” principle when it comes to labeling, regulations and reducing red tape.
- Perpetual easements for wildlife are a challenge for the ag community.
- Frustration was expressed over difficulty accessing information from the EPA. Suggestion for more EPA ag liaisons, possibly specialized by livestock and commodities.
- It is a burden to report similar information to both state and federal governments. Reduce the amount of reports required by the EPA.
 - o EPA and states need to agree on a simple consistent message for farmers to understand.
 - o There appears to be no regulatory consistency between states which creates compliance issues for businesses which cross state boundaries.
 - o “What is the recourse if I have a question about inconsistent application of regulations?” (ie: inconsistencies between government regulators – EPA/OSHA/state – EPA insists on regulating ‘shared anhydrous ammonia tanks’ as retail operations when they are NOT a retail operation. EPA regulations like this need to be tailored to this unique situation.
- DO NOT develop guidance for perceived problems.
- A unique ND challenge – 23 million acres planted but 300K irrigated. North Dakota is dependent on Mother Nature.

Next Steps

EPA staff will follow up on the various ideas suggested during the meeting and respond to individual concerns in a timely manner.

Patrick,

Thank you very much for your time last Tuesday. Joc, Lorine and I appreciated the opportunity to meet with you and introduce you to Mosaic. Lorine will send you a copy of the comment letter we submitted to EPA in May. Please let us know if there are particular issues on which we may be able to be of assistance or work together. We would also welcome the opportunity to provide you with a tour of our Central Florida operations, so you can get a sense of the critical role our industry plays regionally, domestically and globally.

Thanks again for your time. We look forward to working with you.
Eileen

Patrick—As promised here is the letter we submitted in May in response to the call for “Evaluating Existing Regulations.” As we mentioned in our meeting last week, we focused largely on CERCLA 108 (b) proposed rule on hardrock mining, CWA Section 404 existing regulation, and the Risk Management Program (RMP) existing rule.

Let us know if you have any questions on our submission and as Eileen said, we look forward to working with you over the coming months.

Action Required		Recipient
Unknown To address		

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.

- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.10 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

Was this helpful? [Send feedback to Microsoft](#).

More Info for Email Admins

Status code: 550 5.1.10

This error occurs because the sender sent a message to an email address hosted by Office 365 but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Recipient has a valid license - Make sure the recipient has an Office 365 license assigned to them. The recipient's email admin can use the Office 365 admin center to assign a license (Users > Active Users > select the recipient > Assigned License > Edit).

Mail flow settings and MX records are not correct - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see [Fix email delivery issues for error code 5.1.10 in Office 365](#).

Subject: You are invited: Ag Smart Sectors Round Table discussion

You are invited to participate in the U.S. Environmental Protection Agency's agriculture and food production Smart Sectors roundtable discussion.

Who:

- Agriculture stakeholders
- Producers
- Associations
- Local, State and Federal government employees

What: EPA Smart Sectors is a partnership program that provides a platform to collaborate with regulated sectors and develop sensible approaches that better protect the environment and public health: <https://www.epa.gov/smartsectors>

Where: Grand International Hotel
1505 North Broadway
Minot, ND 58703

When: Monday, June 25, 2018
3:00 to 4:30 p.m.

Why:

- The roundtable is focused on identifying practical solutions to various environmental regulatory, permitting, and compliance challenges to achieve more effective and efficient environmental outcomes.
- To improve relationships and enhance communications among sector stakeholders.
- To identify and share solutions related to challenges that adversely impact efficient and timely compliance.

How:

- Stakeholders will come together to share their individual expertise and experience. Participants will be asked to share their individual viewpoints throughout the roundtable and consensus will not be sought.

Questions to ponder before attending the roundtable:

- In your personal opinion which EPA policies or regulations would you like to see modified or made easier with which to comply?
- In your personal opinion what could the EPA do to accomplish this?

For More Information:

Patrick Davis
U.S. Environmental Protection Agency
Senior Advisor to the Regional Administrator for Public Engagement
1595 Wynkoop Street
Denver, CO 80202
303-312-6855 (direct)
Davis.patrick@epa.gov

Please let me know if you will be able to attend.

Sincerely,

Patrick Davis
U.S. Environmental Protection Agency
Senior Advisor to the Regional Administrator for Public Engagement
1595 Wynkoop Street
Denver, CO 80202
303-312-6855 (direct)

Delivery has failed to these recipients or groups:

Sarah Lovas (sarah@lovalfarms.com) (sarah@lovalfarms.com)

Your message couldn't be delivered. The Domain Name System (DNS) reported that the recipient's domain does not exist.

Contact the recipient by some other means (by phone, for example) and ask them to tell their email admin that it appears that their domain isn't properly registered at their domain registrar. Give them the error details shown below. It's likely that the recipient's email admin is the only one who can fix this problem.

For more information and tips to fix this issue see this article:
<https://go.microsoft.com/fwlink/?LinkId=389361>.

Subject: You are invited: Ag Smart Sectors Round Table discussion

You are invited to participate in the U.S. Environmental Protection Agency's agriculture and food production Smart Sectors roundtable discussion.

Who:

- Agriculture stakeholders
- Producers
- Associations
- Local, State and Federal government employees

What: EPA Smart Sectors is a partnership program that provides a platform to collaborate with regulated sectors and develop sensible approaches that better protect the environment and public health: <https://www.epa.gov/smartsectors>

Where: Grand International Hotel
1505 North Broadway
Minot, ND 58703

When: Monday, June 25, 2018
3:00 to 4:30 p.m.

Why:

- The roundtable is focused on identifying practical solutions to various environmental regulatory, permitting, and compliance challenges to achieve more effective and efficient environmental outcomes.
- To improve relationships and enhance communications among sector stakeholders.
- To identify and share solutions related to challenges that adversely impact efficient and timely compliance.

How:

- Stakeholders will come together to share their individual expertise and experience. Participants will be asked to share their individual viewpoints throughout the roundtable and consensus will not be sought.

Questions to ponder before attending the roundtable:

- In your personal opinion which EPA policies or regulations would you like to see modified or made easier with which to comply?
- In your personal opinion what could the EPA do to accomplish this?

For More Information:

Patrick Davis
U.S. Environmental Protection Agency
Senior Advisor to the Regional Administrator for Public Engagement
1595 Wynkoop Street
Denver, CO 80202
303-312-6855 (direct)
Davis.patrick@epa.gov

Please let me know if you will be able to attend.

Sincerely,

Patrick Davis
U.S. Environmental Protection Agency
Senior Advisor to the Regional Administrator for Public Engagement
1595 Wynkoop Street
Denver, CO 80202
303-312-6855 (direct)

Your message couldn't be delivered to multiple recipients.

The recipients weren't found at heitekamp.senate.gov.

davis.patrick
Action Required

Office 365

Recipients
Recipients

Unknown To address

Couldn't deliver to the following recipients:

michaela.brost@heitekamp.senate.gov, norman.mccloud@heitekamp.senate.gov

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.1 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

Was this helpful? [Send feedback to Microsoft](#).

More Info for Email Admins

Status code: 550 5.1.1

This error occurs because the sender sent a message to an email address outside of Office 365, but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Mail flow settings and MX records are not correct - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see [Fix email delivery issues for error code 550 5.1.1 in Office 365](#).

Subject: Reports from the June 25 EPA Ag Smart Sectors Roundtable
Attachments: North Dakota Agriculture Smart Sectors meeting June 25, 2018.docx; ND Corn comments to EPA Smart Sector Meeting - June 25, 2018.docx

Good Morning,

Thank you for participating in the June 25th EPA Ag Smart Sectors Roundtable in Minot. Please find a couple reports reflecting our discussion. A big thanks to Rebecca Perrin for the help in coordinating this event and report. Please don't hesitate to contact me with questions. Those who were invited but not able to attend are copied on this email.

Sincerely,

Patrick Davis
U.S. Environmental Protection Agency
Senior Advisor to the Regional Administrator for Public Engagement
1595 Wynkoop Street
Denver, CO 80202
303-312-6855 (direct)
Ex. 6 (cell)

ND Corn Growers Association
Smart Sector Subjects
June 25, 2018

Ethanol Priority Issues

- **RVP parity for ethanol blends greater than 10 percent, such as E15**
Corn growers have asked EPA to use the agency's authority to extend the 1.0 pound per square inch (psi) Reid Vapor Pressure (RVP) allowance that currently applies for 10 percent ethanol blends to E15, enabling E15 to be sold year-round and enter the market on the same terms as E10. We believe EPA has several justifiable options to update the agency's RVP regulations and encourage EPA to move forward. Because E15 has lower evaporative emissions than E10, as well as produces fewer tailpipe emissions, extending the same RVP allowance to E15 as applies to E10 furthers EPA policy goals.
- **Broad grant of RFS exemptions for small refineries without reallocating exempted obligations to other parties**
Corn growers are extremely concerned with EPA's recent use of the small refinery exemption authority to grant RFS exemptions to small refineries. If the exempted obligations are not reallocated to other obligated parties, the Agency's actions have the effect of reducing the RFS volume requirements. Most recently in the 2019 RVO proposed rule, EPA stated exemptions granted for 2016 and 2017 RFS obligations amounted to 2.25 billion ethanol-equivalent gallons. For farmers, every billion gallons of ethanol production ties back to 2.1 million acres of corn; these exemptions impact corn demand.

Clean Water Act Issues

- **We look forward to a new WOTUS rule that provides clear jurisdictional boundaries to farmers and protects our nation's water.**
Under the unlawful 2015 Rule farmers would have had to obtain permits for discharges into mostly-dry land features that are not actually "waters of the United States" (at a costs of tens or hundreds of thousands of dollars per permit), or assume the risk of fines and criminal penalties.
- **NCGA and ND Corn supports the repeal of the National Pollutant Discharge Elimination (NPDES) permits for pesticide applications as mandated by the U.S. Sixth Circuit Court of Appeals.**
Requiring Clean Water Act NPDES water permits for pesticide applications is redundant, costly, and provides no additional environmental benefit.

Crop Protection Issues

- **ND Corn growers urge the EPA to objectively evaluate the risks and benefits of crop protection products using the best available science.**

NCGA and ND Corn supports a requirement for a scientific-based review and cost risk/benefit analysis for the registration and re-registration of crop protection products including triazines.

- **The interagency consultation process for pesticide registrations under Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Endangered Species Act (ESA) must be streamlined.**

The continued confusion around this process and a path forward has been an issue for decades and has not provided additional protection for wildlife. The process has created confusion on the farm, in the marketplace, and wasted time and resources.

Region 8 Smart Sectors

North Dakota Agriculture Smart Sectors Meeting

Who:

- State and Federal:
 - Doug Goehring, Secretary, ND Department of Agriculture - invited
 - Marty Haroldson – ND Dept. of health mharolds@nd.gov (NPDES Program) - invited
 - Ted Alme – ND NRCS Ted.Alme@nd.usda.gov - invited
 - Justin Hanson - U.S. Senator Heidi Heitkamp (N.D.)
Justin_Hanson@heitkamp.senate.gov (Field Representative) - invited
 - Jeremy Lang – ND Dept. of Health jmlang@nd.gov (Div of Water Quality) - invited
 - Mike Ell – ND Dept. of Health mell@nd.gov (319 program) - invited
 - Melanie Gaebe – ND Dept of Agriculture mgaebe@nd.gov (policy advisor) - invited
 - Karl Rockeman – ND Dept of Agriculture krockema@nd.gov (NPDES program) - attending
 - Mary Podoll – USDA NRCS mary.podoll@nd.usda.gov (state conservationist) - invited
 - Sally Johnson – U.S. Senator John Hoeven (N.D.)
sally_johnson@hoeven.senate.gov - invited
 - Kaitlyn Weidert – U.S. Representative Kevin Cramer (N.D.)
Kaitlyn.weidert@mail.house.gov - attending
 - Eric Delzer delzer@nd.gov – invited
 - Dave Glatt, ND Department of Health - invited
- Stakeholders/industry/Associations:
 - John Sandbakken (National Sunflower Association);
johns@sunflowerusa.com – **NOT attending**
 - Julie Ellingson - ND Stockman's Association jellingson@ndstockmen.org (executive vice president) - invited
 - Andrew Thostenson – ND State University Extension Service
andrew.thostenson@ndsu.edu (Pesticide program) - invited
 - Dale Ihry – ND Corn Growers association dale@ndcorn.org (Executive Director) – attending
 - Terry Wehlander, ND Corn Council Chairman – attending
 - TBD, ND Corn Growers Director – attending (coming with Dale Ihry)
 - Sarah Lovas, CCA - Lovas Consulting, LLC and Lovas Farms – Agronomy
sarah@lovasfarms.com - invited
 - JaCee Aaseth - U.S. Durum Growers Association office@durumgrowers.com - invited
 - Laura Demmel - [National Association of Conservation Districts](http://NationalAssociationofConservationDistricts.org) - Laura-demmel@nacdn.net – invited (email bounced)

- Kayla Pulvermacher – ND Farmers Union kpulvermacher@ndfu.org - attending
- Jeffrey R. Missling - North Dakota Farm Bureau jeffm@ndfb.org (Executive Vice President & CEO) - invited
- Pete Hanebutt, North Dakota Farm Bureau pete@ndfb.org (governmental affairs Director) **Dan suggested we invite him.** - invited
- Chuck Gunnerson - Northern Plains Potato Growers Assn. cgunnerson@nppga.org - invited
- Delane Taylor – CHS Inc. Delane.Thom@chsinc.com (cooperative) - attending
- Nancy Johnson – ND Soybean Growers Association nancy.johnson@ndsga.com (Executive Director) - invited
- * Stephanie Sinner- ND Soybean Council ssinner@ndsoybean.org (Executive Director) - invited
- * Patricia Spaine – AgPros pspaine@agpros.com (ag engineering company – CAFOs) - invited
- * Dwight Wragham – North Dakota Land Association Ex. 6 - invited
- * Bill Hejl – Crystal Sugar bhejl@crystalsugar.com – attending
- * Tyler Grove – Crystal Sugar - attending
- Jennifer Ferrando - PG Environmental Jennifer.Ferrando@pgenv.com (engineering company – CAFOs) – NOT attending – Send her final report
- * Dan Wogsland – ND Grain Growers Association danw@ndgga.com - attending
- * Steve Edwardson – ND Barley Association steven.edwardson@ndbarley.net - invited
- Gary Knudson - gary@ndag.org - invited
- Neal Fisher – ND Wheat nfisher@ndwheat.com - invited
- Tim Courneya – nhbean@loretel.net - invited
- Barry Coleman (Northern Canola Growers); Coleman@ndpci.com - attending
- * Sheri Coleman (Ameriflax); scoleman@ndpci.com – NOT attending
- Duane Maatz (Red River Valley Sugarbeet Growers Association); dmaatz@rrvsga.com - invited
- * Alicia Brown, CHS, Inc. – attending
- * Jeff Mehl, CHS, Inc. – attending
- * Tom Lehar, CHS, Inc. - attending
- NGO's
- EPA staff:
 - Patrick Davis, R8 - attending
 - Rebecca Perrin, R8 - attending
 - Kristin Sharpe – invited
 - Daisy Letendre – invited
 - Nancy Beck, OCSPP - attending

What: Ag and food production smart sectors roundtable prior to the NDGGA 2018 E-Tour

Where: Grand International Hotel
1505 North Broadway
Minot, ND 58703

When: Monday, June 25, 2018
3:00 to 4:30 p.m.

Why:

- The roundtable is focused on identifying practical solutions to various environmental regulatory, permitting, and compliance challenges to achieve more effective and efficient environmental outcomes.
- To improve relationships and enhance communications among (sector) stakeholders.
- To identify and share solutions related to challenges that adversely impact efficient and timely compliance.

How: Stakeholders will come together to share their individual expertise and experience. Participants will be asked to share their individual viewpoints throughout the roundtable and consensus will not be sought.

Seed questions:

In your personal opinion which EPA policies or regulations would you like to see eliminated, modified or made easier with which to comply?

In your personal opinion what could the EPA do to accomplish this?
